

## Interested in becoming a volunteer for the **Community REACH** project?

Do you live in the Noel Park ward and want to improve people's access to maternity services?

This is a new project and we are looking for people with an interest in raising awareness of the importance of antenatal care early in pregnancy. Whether you're a parent, grandparent, or may plan to have a baby in the future, you can gain skills while helping pregnant women and their families in your community. We are looking for people with good communication skills who live in Noel Park, and who are available for a few hours per week for the six months that the project will take place. **Free training (over 2 days) will be provided to all volunteers.**

### ***The Community REACH project aims to:***

- Encourage women and their families to access antenatal care and support early in pregnancy
- Raise awareness about antenatal care services in your community and how they can be accessed

**If you are interested please contact us by calling 0208 801 9224 or email us at [post@embraceuk.org](mailto:post@embraceuk.org).**

***Embrace UK is working on this project with the University of East London and a number of different NHS Trusts.***
